No side effects for the car windshields or wipers

3. Why buy RainDrives™ water repellent compare to other products?

We, bring innovations at affordable price to benefit all people

4. How long RainDrives™ water repellent lasts?

4 weeks protection. Lasts longer than any international brands.

DIRECTIONS

- Before spraying, clean and dry the windshield, side, rear windows and mirrors.
- Spray RainDrives™ solution in a microfiber cloth.
- From left to right-wipe onto the surface in a circular motion with uniform coverage.
- Make larger circular motion on the surface to smooth out the application.
- Allow the surface to dry.
- After 15 minutes, wipe with a mild wet cloth to remove the cloudiness.
- Apply to back Windshield, Side Windows and Rear View Mirrors

Common Mistakes to Avoid (Get Best Results)

- **Must Dry Before Driving:**
Rainy days require more drying time; Vehicle under bright electric light helps to dry soon.
- **Application Amount:**
Just 30 to 40ml for windshield. Too much liquid cause cloudy screen, No Worries, Just Wipe off cloudy with mild wet towel.
- **Reapplication:**
Can re-apply if there are any issues with your first-try
